

MAAYAN SARFATI

Data Analyst

maayansarfati@gmail.com | 050-2212839 | [Linkedin](#) | [Personal Website](#)

SUMMARY

Driven and analytical Data Analyst dedicated to finding efficiency-boosting solutions. Equipped with a strong background in statistical modeling and data science, I thrive on optimizing processes and solving complex challenges. Eager to bring high motivation and technical expertise to build streamlined tools that support strategic decision-making.

KEY SKILLS

Programming & Databases: SQL, Python, R

Data Tools & Software: Advanced Excel, ArcGIS, QGIS

Languages: Hebrew (Native), English (Proficient)

WORK EXPERIENCE

Data & Technology Applications, Student Administration Division,
The Hebrew University of Jerusalem

March 2025 – Present

- **Spearheaded data processing and analysis** initiatives using Python and Advanced Excel, manipulating administrative datasets to extract insights and support operational goals.
- **Developed custom tools and automated scripts** in Python to address specific technological needs within the division, significantly streamlining daily workflows and improving efficiency.
- **Maintained and optimized data pipelines**, transforming and cleaning complex information to ensure high data integrity for the team's ongoing projects.

EDUCATION

B.Sc. Double Major in Statistics & Data Science and
Geography, Environment & Geoinformatics

Expected Aug 2026

The Hebrew University of Jerusalem

- Minor: Geoinformatics
- GPA in Statistics & Data Science: 96.4
- GPA in Geography: 94.6
- Dean's List 2024 & 2025
- Relevant Coursework: Algorithms and Data Structures (100), Big Data Mining (100), Statistical Learning and Data Analysis (85), Regression and Statistical Models (95), Simulation in Statistics, Foundations of Spatial Statistics.

PROJECTS

Clinical Data Tool: Fetal Growth Modeling (R, Shiny)

Developed a compiled R Shiny application for modeling fetal growth, utilizing Quantile Regression and Cubic Splines to accurately calculate and visualize gestational percentile curves within a standalone clinical tool.

MILITARY & RESERVE SERVICE

2016 – Present | Intelligence Sergeant & Combat Soldier | IDF, Artillery Corps
